# Item 1: FATF and Singapore's FATF Mutual Evaluation in 2025

# Singapore is a member of FATF, the international AML/CFT/CPF standards setter

- The Financial Action Task Force (FATF) is an **inter-governmental body that establishes international standards for combatting money laundering (ML), terrorism financing (TF) and proliferation financing (PF).**
- Singapore is a member of the FATF and has **contributed actively to FATF's work** in support of the global fight against ML/TF.
- In its last evaluation of Singapore in 2016, the FATF assessed Singapore to have a strong legal and institutional framework against money laundering and terrorism financing. We achieved substantial results in several aspects, even as a few areas were identified for improvement.
- We have taken significant steps since the evaluation in 2016 to address these areas and to further strengthen our regime. These enhancements would only be covered in Singapore's next evaluation in 2025.

# Singapore's Strategy Against ML/TF/PF

- We adopt a holistic ecosystem approach – across the government, public-private partnership, and international collaboration
- A whole-of-Government effort is led by an inter-agency steering committee co-chaired by PS/MHA, 2PS/MOF and MD/MAS
- Singapore's AML/CFT/CPF strategy has three prongs, that applies across various sectors:
  - **Prevention** - a robust legal and regulatory framework to deter criminals
  - **Detection** - our STR regime and supervision by sectoral regulators
  - **Enforcement** - taking strong action when there is suspicion of money laundering

# Risk-Based Approach

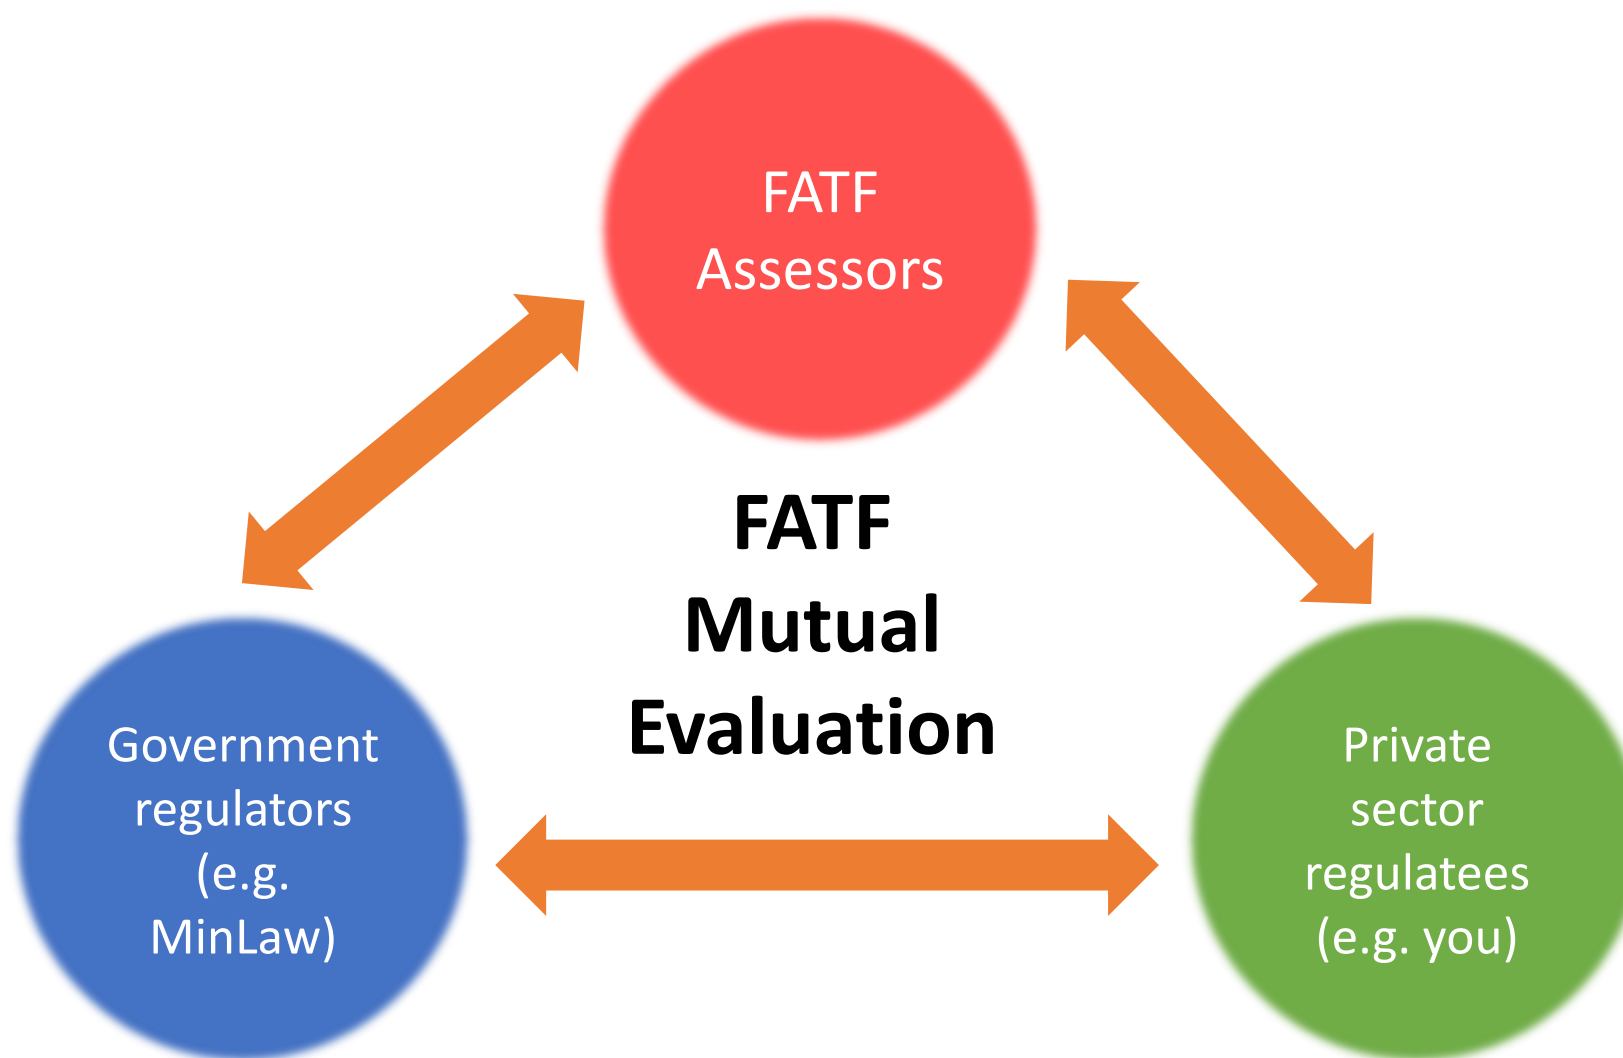

**Risk of ML, TF  
and PF**

**Regulatory Cost  
to Prevent ML,  
TF and PF**

# Singapore's FATF Mutual Evaluation 2025
